§1. Introduction

This a L^AT_EX template specially designed for Chinese Journal of Applied Probability and Statistics.

§2. Common environments in L^AT_EX

2.1 Classification

See the four categories in the Chinese version.

2.2 Examples

Here are some examples of formulae, tables, figure insertions, citations for your reference.

$$\begin{cases} \pi = 3.141 \cdots \\ \sqrt{2} = 1.414 \cdots \end{cases} \quad (1)$$

$$\begin{aligned} \pi &= 3.1415926 \cdots \\ &\approx 3.14. \end{aligned} \quad (2)$$
